ECO Church July TIPS

It's Plastic Free July and this year we're thinking about laundry, a top source of microplastic pollution. Fibres from synthetic clothes (polyester, nylon, and acrylic for example) shed tiny fibres during washing and drying. These enter the sewage systems and are hard to filter out. Use a microfibre bag or ball to catch the fibres. Learn more about reducing plastic pollution in the laundry process at plasticfreejuly.org/get-involved/what-you-can-do/plastic-free-laundry/ and more about this year's campaign at plasticfreejuly.org.
