CARDS SOLD IN AID OF KEFRAMA HIGH SCHOOL

The cards on the stands at the back of church are wide ranging. However, if you can't find a card for a particular occasion, please let me know, and I will try to design one to suit. Also, if you would like a card to have a number of a significant birthday, simply let me know the code on the back of the card of your choice, and I will produce one with the number on it for you. SOUTHWELL MINSTER

- **Date:** July 29, 2026 10:00am – August 15, 2026 3:00pm

Helios follows on from Luke Jerram's other astronomical artworks [Museum of the Moon](#), [Gaia](#), and [Mars](#).

Helios is a new touring artwork by UK artist Luke Jerram. Measuring seven metres in diameter, the artwork features 72dpi detailed imagery* of the Sun's surface. At an approximate scale of 1:200 million, each centimetre of the internally lit spherical sculpture represents 2000km of the Sun's surface.

It is very dangerous to look at the Sun directly as it can damage our eyesight, so *Helios* provides a safe opportunity for the public to get up close to, and inspect its extraordinarily detailed surface, including sunspots, spicules and filaments. The sculpture also features the source of the solar flares which caused the Northern lights to be visible from the UK in May 2024.

Public display

Wednesday 29 July - Saturday 15 August 2026. Tickets £5/£3 (U5s free)

[Tickets available here](#)

Eclipse night - late night opening

Wednesday 12 August, 7-9pm (the only evening viewing available). Tickets £10/£5

Join us for a special evening viewing of *Helios* at Southwell Minster on the evening where there will be a 92% solar eclipse outside!

Please note that the accompanying soundtrack will not be played; instead there will be various classic tracks relating to the sun, stars, space, eclipses etc.

ECO CHURCH NEWS

ECO Church Tips for July from A Rocha

It's Plastic Free July and this year we're thinking about laundry, a top source of microplastic pollution. Fibres from synthetic clothes (polyester, nylon, and acrylic for example) shed tiny fibres during washing and drying. These enter the sewage systems and are hard to filter out. Use a microfibre bag or ball to catch the fibres. Learn more about reducing plastic pollution in the laundry process at plasticfreejuly.org/get-involved/what-you-can-do/plastic-free-laundry/ and more about this year's campaign at plasticfreejuly.org.
